**New Features**

This eLicenser Control (eLC) update introduces a new eLC version format: `<major release>.<minor release>.<patch level>.<build number + eLD state>

- The first three numbers indicate the version: `<major release>.<minor release>.<patch level>`.
  - For eLC '6.0.2.6001', the version number is '6.0.2'.
- The fourth number’s first digit indicates the build number: `<build number ...>`.
  - For eLC '6.0.2.6001', the build number is '6'.
- The fourth number’s last three digits indicate the state of the eLicenser License Database (eLD): `<... eLD state>`.
  - For eLC '6.0.2.6001', the eLD state is '001'.
