## **eLicenser Control Version 6.0.2.6001**

### **Release Date**

**Mac/Win 2009-09-21**

### **New Features**

This eLicenser Control (eLC) update introduces a new eLC version format:  
<major release>.<minor release>.<patch level>.<build number + eLD state>

- The first three numbers indicate the version: <major release>.<minor release>.<patch level>.
  - For eLC '6.0.2.6001', the version number is '6.0.2'.
- The fourth number's first digit indicates the build number: <build number ...>.
  - For eLC '6.0.2.6001', the build number is '6'.
- The fourth number's last three digits indicate the state of the eLicenser License Database (eLD): <... eLD state>.
  - For eLC '6.0.2.6001', the eLD state is '001'.

## Bug Fixes

Win number	<b>eLicenser Control:</b>	Fixed an eLCC issue for copying the Soft-eLicenser's serial into the clipboard.
Mac systems  only).	<b>eLicenser Control:</b>	Fixed an issue for accessing older USB-eLicensers on older (on Mac OS X 10.3.9 'Panther' and on Mac OS X 10.4.x 'Tiger'
